

Implementation Changes for the E-Cabinet System

1. Domain Name Update

update the system's domain name from ecabinet.muranga.go.ke to murangameetings.muranga.go.ke. This change will better align the domain name with the system's purpose and improve its identification.

2. Enhanced Member Selection for Meetings

modify the "Those to Attend" section to allow for the selection of a large number of members by department. This enhancement will enable users to select attendees in bulk, making the process more efficient compared to the current method of selecting attendees one by one.

3. Improved Minute-Taking Functionality

Enhance the minute-taking feature to allow secretaries to record minutes directly within the system during meetings

4. Inclusion of Stakeholders' Meetings and Public Participation.
